

CHAT GROUP TO ASSIST COATINGS INDUSTRY COPE WITH CRISIS

The SA Paint Manufacturing Association (SAPMA) has invited all its members, as well as those of the Surface Coatings Employers' Association (SCEA), to join a special Whatsapp group it has established for the coatings industry to keep abreast of new developments regarding the COVID-19 pandemic's effect on the industry.

SAPMA is also planning to host short informative webinars to assist members of the coatings industry with the following:

- How lockdown and COVID–19 impact their business.
- How to start business operations again when lockdown ends.
- How to submit UIF claims for employees.

“The aim of the Whatsapp group is also to obtain input from industry players on their current state and likely situation post-lockdown,” Tara Benn, Assistant Executive Director of SAPMA, states.

Contact her on tara@sapma.org.za for more information.
